Professional Profile

Design Lead and Interior Designer with 8+ years of experience creating high-quality, photorealistic renders for premium residential and commercial projects. KSE-registered supervision engineer with expertise in space planning, technical drawings, leading 3D visualization teams, and site coordination.

Professional Expertise

- Realistic High-End 3D Visualization & Rendering Direction
- Strategic Interior Design Solutions & Problem Solving
- Advanced Space Planning & Functional Layout Optimization
- Technical Drawing Review & Detailing
- 3D Visualization Team Leadership
- Design Presentation & Client Communication
- Site Supervision & Coordination
- Project Coordination & Design Management

Professional Experience

Aljamal Consultants Office

Kuwait City

Head of Interior Design Department

Current

- Create photorealistic 3D visualizations using 3ds Max, V-Ray, and Corona renderers
- Lead and oversee all design projects, maintaining consistent quality standards across portfolio
- Manage design team coordination and collaborate with architectural and engineering departments
- Develop conceptual designs, space plans, and comprehensive mood boards for high-end projects
- Implement design leadership strategies and mentor junior designers

Masterpiece

Kuwait City

Senior Interior Designer

2021–2023

- Managed luxury residential and commercial interior design projects from concept to completion
- Conducted thorough space planning and furniture layout optimization for client spaces
- Produced high-quality 3D renderings and material selections for client presentations
- Coordinated with contractors and suppliers to ensure design implementation standards
- Oversaw project timelines and budgets while maintaining design excellence

AGARTHA INTERIORS

Egypt

Interior Designer

2019–2021

- Create photorealistic 3D visualizations using 3ds Max, V-Ray, and Corona renderers
- Developed comprehensive design proposals including mood boards, material palettes, and lighting concepts
- Selected materials on-site and coordinated finishes to match design vision
- Prepared quantity take-offs and collaborated with the execution team for accurate implementation
- Supervised on-site work and managed contractors and labor to ensure high-quality results

Prof Ahmed Essa Office

Egypt

Interior Designer

2016–2019

- Designed façades for residential towers, enhancing aesthetic appeal and marketability
- Reviewed and refined architectural plans to improve space utilization and design efficiency
- Prepared architectural drawings for unit marketing and sales presentations
- Developed interior designs aligned with client lifestyle and project vision

Education & Certifications

- **Bachelor of Construction Engineering & Management** – Zagazig University, Egypt – 2019
- **Accredited Supervising Engineer Certificate** – Kuwait Society of Engineers (KSE)
- **LEED Green Associate** – Currently preparing for accreditation

Technical Proficiencies

- **3D Modeling & Visualization:** Autodesk 3ds Max, V-Ray, Corona Renderer
- **Drafting & Documentation:** AutoCAD
- **Post-Production & Editing:** Adobe Photoshop, Adobe Lightroom
- **AI Integration:** AI-powered design and rendering workflows

Languages

Arabic: Native

English: Fluent

Key Achievements

- Delivered high-quality 3D visualizations through deep spatial analysis and lifestyle-focused design tailored to client needs, creating spaces that are visually compelling and functionally meaningful.
- Collaborated closely with clients and teams to translate design concepts into functional, aesthetically engaging spaces.
- Integrated AI-powered workflows to optimize rendering efficiency and enhance design outcomes.
